

MARQUE PROPERTY GROUP

ELEGANT AND INVITING

A LUXURIOUS RETREAT

Designed and built by Marque Property Group, this opulent dual-occupancy property is a testament to the company's expert planning and execution skills. Featuring large windows, a mix of materials and low-maintenance landscaping, the façade exudes a sense of grandeur. With a considered design, the frontage has impressive street appeal.

The open-plan kitchen features a vaulted ceiling with stylish pendant lights for a contemporary aesthetic, and spacious benchtops that are ideal for food preparation and entertaining. With a monochromic colour palette, the living and dining area is a sophisticated space for the homeowners to relax, while access to the wrap-around decking is made easy with sliding glass doors.

Window treatments throughout the property provide an abundance of natural light and enhance the feeling of spaciousness. The use of quality materials and elegant tiles add a sense of luxury to the bathrooms, while the generous-sized bedrooms are sophisticated retreats.

With careful planning, Marque Property Group split the dwellings into zones to take better advantage of the available space. Both homes feature four bedrooms, a study and two living areas for everyday convenience and flexibility.
